During the exam pupils are advised to spend 30 minutes answering each question.
Revision sessions

In order to ensure you achieve the very best possible grade it is necessary to attend weekly revision sessions. Revision sessions are currently being offered to year 11 pupils on Thursday lunchtimes and Wednesdays 3.30pm-4.30pm.

Revision materials

- Regular and timely revision is essential in both ensuring adequate knowledge of the topics covered and to deepen understanding of Christian responses. Quality revision will also give pupils an opportunity to practise skills needed for the exam.

- Free printed booklets are available covering key knowledge and bible quotes for each topic, along with previous exam questions. For a charge of £1.00 students may purchase a published revision guide covering all areas.

- A Youtube channel has been created that contains all videos used during previous lessons. Videos are topical, i.e. euthanasia in the news as well as retelling bible stories.

- Past exam papers are available at school as well as on the OCR website. Please be sure to select the correct course.

- http://www.bbc.co.uk/education/subjects/zb48q6f
  The BBC Bitesize website contains lots of useful information to aid revision and covers many of the topics included in the exam.

Revision techniques

All students will find the method of revision that best suits them. Some may prefer to mind map whilst others may prefer to complete revision cards or test their knowledge using ‘look-cover-check’. Pupils should be spending at least 20 to 30 minutes at a time revising.
Exam board  Exam dates and durations

AQA  Core Exam 1: 16th May 2017 (PM) - 1 hour 30 mins
     Core Exam 2: 24th May 2017 (PM) - 1 hour 30 mins

     Additional Exam 1: 9th June 2017 (AM) - 1 hour 30 mins
     Additional Exam 2: 16th June 2017 (AM) - 1 hour 30 mins

Exam paper structure

You are taking ‘Route 2’ which involves a total of four 1.5 hour exams across Core and Additional Science. Each exam has aspects of Biology, Chemistry and Physics in it. This means you need to balance your revision across the three areas of science, not just on one particular subject!

Support from the academy

Study support sessions are available after school weekly 3.15pm-4.15pm.

Study sessions are available before school or at lunch times (please speak to your science teacher).

It is essential to attend a weekly session (before school, at lunch time or after school) to ensure you are continuously revising Core Science topics.

Homework is provided weekly - this is a great opportunity to complete practise exam questions.

Extra work is always available - please speak to your teacher.
Revision tips

• Go through lesson work again – highlight key points, make extra revision notes and complete extra questions on the topics as necessary. Extra topic questions are available from your teacher.

• Ensure that you have acted on your feedback points from the formative assessments and examination papers – this is your opportunity to review any specific points you are unsure on.

• Ask your teacher for extra copies of the examination papers so that questions can be completed again, and see what has been remembered or improved on.

Revision guides

Revision guides are available from your science teacher for £1.00 each (RRP £5.95) - one for core and one for additional. Use the revision guide to find the key information and make revision notes (e.g. mind maps and revision cards). Then try an exam paper on that section. Trying the exam questions is really important to check you can apply your understanding.
