

Design concept

Pupils will design a purposeful animal enclosure based on the natural habitat of their chosen animal and the design criteria. They will then make this design, critique and evaluate it against the design criteria.

Vocabulary:

Habitat	A natural home for an animal, plant or living organism.
Shaping	Give something a particular form or shape to it for a purpose.
Joining	Link two items together.
Finishing	Finish the design.
Lever	A lever moves depending on weight.
