

Year 3: Andy Goldsworthy

Key Facts:

Born: 26th July 1956

Born in Cheshire - English Sculptor. He lives and works in Scotland in a village called Penport.

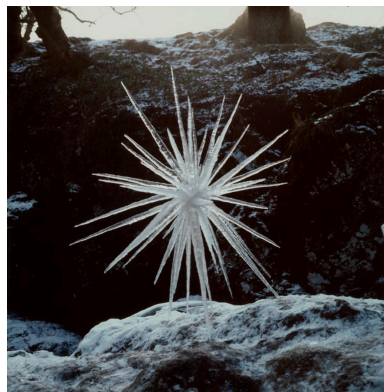

Techniques and Materials:

Andy Goldsworthy produces artwork using natural materials (such as flowers, mud, ice, leaves, twigs, pebbles, boulders and snow)

Works with ice and snow

One element that made Goldsworthy famous is his ice and snow works. In the winter he makes montages and sculptures integrated into the environment, with plates of ice taken from lakes or river banks.

Techniques and Materials:

Works with stones and some bones

Goldsworthy traveled forests and quarries to find suitable stones for certain sculptures.

Goldsworthy's work does not reveal an ideal nature but it's generated from the understanding of their physical qualities.
