

PSHE – Year 11

- Autumn Term -

Finance

We will start by reviewing the different types of bank accounts, what debt is and how to avoid it. We will then look at the different ways jobs can pay you for your work, what a payslip is and what it looks like. We'll explore different financial risks, including gambling, and whether the potential outcome is worth it. Finally, we will investigate the difference between renting and a mortgage, and what a pension is.

- Spring Term -

Sexual Education

The majority of the year will be spent on sexual education. We will recap what consent is and what we mean by 'safe sex'. We will then look at teenage pregnancy, the options available if you have an unwanted pregnancy and the different responsibilities involved in parenting. We will then look at reproductive health, (including fertility and IVF treatment). We will then look in more detail at pregnancy and what happens with a miscarriage. Finally, we will look at different forms of sexual harassment, including upskirting and downblousing.

- Summer Term -

Wider World

To end the year, we will look at how to stay safe in the wider world. We will start by looking at the online world and the role media plays in our lives (both the benefits and dangers). We will then review how to fact check information we come across online. We're then going to move on to the different options available Post-16, how to fill out applications and different strategies for coping with stress. Finally, we will look at various revision techniques, including building a revision timetable to prepare for GCSE exams.
