Year 9 – Summer Term – What is the future of faith?

This term, we will be focussing on understanding how religion and modern society relate to each other. We will explore the changing religious landscape of Britain over the last century towards religion and the impact religion has. Furthermore, we will apply this to our understanding of key ethical issues today and how attitudes and views have changed to these over time. Additionally, you will be able to apply both Autumn and Spring content to these ethical issues.
