

LEARNING JOURNEY Statistics

Summarising data

Year 10 Unit 3

As a Statistician, it is important that we understand how to manipulate and summarise data. In this unit we will learn the benefits and limitations of various summarising techniques. We will see which measures are appropriate to use and how we can apply them to data in many different formats.

TUDOR HABITS AND VALUES: You will build calculation skills and interpretation of results. You will build your communication skills giving context to your calculations

VOCABULARY

- ☐ Average
- ☐ Geometric mean
- ☐ Weighted mean
- ☐ Dispersion

- ☐ Standard deviation
- ☐ Outlier
- ☐ Skew
- ☐ Central tendency
